

## **Banarsidas Chandiwala Institute of Physiotherapy**

### **Event Report Title: World Environment Day**

**Date: 5<sup>th</sup> June 2024**

#### **General**

On 5<sup>th</sup> June 2024, the Banarasidas Chandiwala Institute of Physiotherapy marked World Environment Day with a unique and impactful initiative based on the theme “(i)Land Restoration (ii)Desertification and (iii) Drought Resilience” as assigned by the Ministry of Environment Forest and Climate Change. Demonstrating their commitment and love to environment, all faculty members participated in an event where each faculty and staff member adopted a plant to nurture and care for.

#### **Objective**

The primary objective of the World Environment Day celebration at Banarasidas Chandiwala Institute of Physiotherapy was to foster a culture of environmental awareness and responsibility among the faculty and students.

By adopting plants, the faculty aimed to:

- **Promote Environmental importance:** Encourage a hands-on approach to caring for the environment, illustrating the importance of individual contributions to ecological sustainability.
- **Educate and Inspire:** Use the act of adopting and nurturing plants as a practical lesson in environmental science, teaching both faculty and students about the vital role of plants in our ecosystem.
- **Enhance Campus Greenery:** Contribute to the beautification and greening of the campus, creating a more pleasant and healthy environment for all.
- **Build a Sustainable Community:** Foster a sense of collective responsibility and community spirit focused on sustainable living practices.
- **Raise Awareness:** Highlight the significance of World Environment Day and promote broader environmental issues, encouraging on-going engagement and action beyond the event.

#### **About the Event:**

The celebration began with a brief ceremony highlighting the significance of World Environment Day and the importance of plant life in maintaining ecological balance. The faculty members, driven by a shared vision of a greener campus and a healthier planet, each selected a plant to adopt. This initiative not only symbolizes their dedication to environmental conservation but also serves as a hands-on educational experience for both the staff and students.

Throughout the event, the faculty discussed various aspects of plant care and the broader implications of environmental responsibility. By adopting and caring for these plants, the faculty aims to inspire students and the community to take similar actions in their daily lives, fostering a culture of sustainability and respect for nature.

This initiative by the Banarasidas Chandiwala Institute of Physiotherapy highlights the power of collective action in addressing environmental issues. As these plants grow and thrive, they will stand as living reminders of the institute's dedication to creating a greener and more sustainable world.

### Attendees

**Total Faculty and staff who attended the program: 14**

### Conclusion

The World Environment Day celebration at Banarasidas Chandiwala Institute of Physiotherapy concluded on a high note, with a strong sense of accomplishment and unity among the faculty members. As the event came to an end, participants expressed their renewed commitment to caring for their adopted plants and promoting environmental consciousness within the campus and beyond. This event served as a powerful reminder of the impact that small, consistent actions can have on the environment.

**Adoption of the plants by the faculty Members, which was distributed by**

**Dr. C.S Ram, Director, BCIP.**

**A collective initiative for creating a more pleasant and healthy environment for all.**

**Plantation Drive- Plantation of the plant was then done in their pots.**

**After planting them everyone watered their plants.**
